HELIOCOL

SOLAR POOL HEATING. ENGINEERED FOR LIFE. ©

***Warmth, Comfort,
& Enjoyment...***

More benefits with Heliocol solar:

- World's Largest Solar Pool Manufacturer
- Extends Your Swimming Season
- Roof Friendly
- Environmentally Safe
- Maintenance Free
- Chosen to Heat Olympic Pools

How It Works:

A pump, usually your existing pool pump, pushes water through a filter to strain leaves and debris. The water is then pumped into a Heliocol solar panel where it is substantially heated. The sun-warmed water flows back into your pool, heating it to your desired temperature.

Certification Data:

- ISO 9001:2008 and ISO 14001:2004
- Ortech International Laboratories
- Solar Rating & Certification Corporation (SRCC)
- Solar Energy Analysis Laboratory (SEAL)
- DSET Laboratories, Inc.
- HRS, Florida (Required for commercial use)
- Miami Testing Laboratory
- Florida Solar Energy Center (FSEC)
- British National Water Council (for potability)
- German Federal Health Board
- NSF 50 for Recreational Water Facilities
- PRI construction materials technologies
- IAPMO #S-7379

Heliocol's Unique Technical Features:

- Patented individual tube design allows for expansion and contraction, eliminating cracks.
- One-piece "over-molded" construction eliminates welds.
- No moisture build-up under the collectors.
- Innovative mounting hardware eliminates need for radiator hose, metal clamps, & multiple straps across the collectors.
- Designed to resist hurricane-force winds.
- Low collector head loss rate reduces pump requirements.

Strong Warranty

Limited 12 year warranty covering parts and labor.*
See warranty for details.

NSF-50

The Heliocol Solar Collector

...is the most advanced pool heating panel on the market today. In continuous production since 1977, by the world's largest solar pool collector manufacturer.

Heliocol has a proven track record of durability, performance and design excellence.
